AMERICAN PSYCHOLOGICAL ASSOCIATION

ANNOUNCING...

The NEW **Eighth Edition** of the
American Psychological Association's

THESAURUS of Psychological Index Terms

The Thesaurus is an indispensable reference tool to effectively search the PsycINFO®, PsycLIT®, and ClinPSYC™ databases. Searching is quick, easy and economical with its precise controlled vocabulary, representing psychological concepts, used to index these databases and *Psychological Abstracts*.

The 8th Edition is presented in hardcover and is thumb-indexed for easy access. Using this state-of-the-art reference tool before you go online to search will save you time and money.

There are many enhancements throughout the publication:

- Over 250 new postable terms or descriptors have been added, reflecting expansion of and changes to the vocabulary of psychology and related disciplines
- Over 200 existing scope notes have been revised to increase the clarity and precision of their use
- 110 new scope notes have been included to clarify terms with ambiguous meanings, describe applications unique to the PsycINFO databases, or to provide information on term usage patterns that have changed over time
- Approximately 200 hierarchies have been reconstructed to make them more complete and accurate
- Close to 200 new nonpostable terms have been included to provide better points of entry and improved standardization of the vocabulary

NOTE: A complimentary copy of the eighth edition of the *Thesaurus* will be made available to organizations who subscribe to PsycLIT on CD-ROM or purchase a PsycINFO Site Lease.

1997. 408 pages.

Psychological Abstracts

Nonevaluative summaries
of the serial and book
literature in psychology and
related disciplines

VOLUME 84, AUTHOR INDEX II JANUARY–DECEMBER 1997

TRUSTED WORLDWIDE AS THE AUTHORITATIVE PRINTED REFERENCE IN PSYCHOLOGY

Now a single print product gives users access to chapter, book, and journal information from all areas of psychology and related disciplines. APA's *Psychological Abstracts (PA)* brings users nearly 3,000 journal abstracts every month and NOW includes book chapter and book information.* Both psychologists and librarians have reported that they want the convenience of having a single source for ALL of the information available from books, book chapters, and journals. That's why chapter and book summaries are included in the monthly issues of *PA*.**

PA gives your users an overview of research in psychology and related fields, sums up articles from over 1,300 English-language journals and over 1,500 books annually, shows everything that's new in a given specialty, and much more!

Don't miss out on psychology's richest resource on current literature! *PA* is priced at $1,359 per year for institutions. Well worth it for over 4,000 journal ***and*** book abstracts per month!

For more information, write to:
American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242, or call (800) 374-2722. In Washington, DC, call (202) 336-5650.

Psychological Abstracts . . .

- reports advances appearing in journals and books that may not be read on a regular basis
- enables users to pick up main ideas at a glance by highlighting the key points in a given document
- saves research time by virtue of *PA* complete bibliographic data for all citations
- and lets users find what they need in a hurry with its reader-friendly indexes for each month and year.

*This book-related material previously appeared separately in *PsycBOOKS*.

**Summaries in *PA* will continue to be grouped by subject classification, as well as now by source: SERIAL, BOOKS, and CHAPTERS. We've retained the style which *PA* subscribers find most efficient, and integrated the strengths of the former version of *PsycBOOKS*.

PsycINFO, a family of interrelated information services, provides access to the literature in psychology and interrelated behavioral and social sciences in a variety of ways. *PsycINFO* consists of:

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of non-evaluative summaries of the serial and book literature in psychology and related disciplines.

Issue. The monthly **PA** issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year. The volume contains approximately 47,000 records.

Indexes. An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

PsycSCAN®s: Clinical Psychology, Developmental Psychology and Applied Psychology. Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology, and applied psychology, respectively.

PsycSCAN: LD/MR. A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

Neuropsychology Abstracts. Formerly known as PsycSCAN: Neuropsychology. A quarterly publication covering the clinical and human cognitive experimental areas of neuropsychology.

Psychoanalytic Abstracts. Formerly PsycSCAN: Psychoanalysis. Quarterly publication containing abstracts in the area of psychoanalysis.

PsycSCAN: Behavior Analysis & Therapy. Drawn from the total coverage of **PsycINFO®**, this quarterly publication contains abstracts in the area of behavior analysis and therapy.

The Thesaurus of Psychological Index Terms© 1997. A compilation of the vocabulary used in psychology and related disciplines as generated from the files of **PA**.

PsycINFO User Manual© 1992. Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed PA issues and indexes or by computer-assisted search of the database.

PASAR® (PA Search and Retrieval). Retrospective search and retrieval services available through the PsycINFO office.

PsycINFO® Database. Magnetic tapes of PsycINFO records to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the PsycINFO database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

PsycLIT®. A CD-ROM product containing PsycINFO citations and abstracts published from 1974 to present. PsycLIT includes summaries and citations from over 1,300 journals from 45 countries. English-language books and chapters from 1987 are included. Updated quarterly.

1. Journal title. Bold type identifies those journals that published articles appearing in this volume year.
2. Publication year of first issue scanned. Asterisks within parentheses indicate that coverage by *Psychological Abstracts* began with the first issue of the publication.
3. Journal ISSN.
4. Journal frequency. The number of issues published per year. "IR" indicates that an irregular number of issues are published.
5. Publisher name.
6. Publisher address.

1. Author(s). As many as four authors are listed; if there are more than four, the fourth author is listed with the notation "et al."
2. Article or chaper title. All titles are in English. Brackets are used to indicate a translated title.
3. Language in which the article was published orginally.
4. Source document title and bibliographic data.
5. Abstract referenced.
6. Record number of parent book.
7. Title of parent book.
8. Book title.
9. Publisher and bibliographic data.
10. Co-author referenced to first author.

Language abbreviations used after translated titles are:

This Annual Author Index contains over 90,000 references to the authors and editors of approximately 45,000 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 1997 through December 1997. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all the authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from "Adams, Paul," even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Due to variation in the representation of names that exist in source documents, alternative locations should be consulted. As many as four authors may be listed per selection. If there are more than four, the fourth author is followed by "et al." Primary entries consist of author name(s), the title of the selection (if foreign), a citation of the original source document, and the *Psychological Abstracts* abstract number under which the entry appeared. All secondary authors are cross-referenced to the primary entry, and the abstract number in *Psychological Abstracts* is printed as well.
